

Peer Review Assignment

Posted: April 28, 2022

Due: May 9, 2022

After reading your assigned reports, provide at least one paragraph for each prompt below. Submit your final work in Gradescope.

Enter assigned report number here:

1. State the authors' objectives and the general questions that the authors are considering. Do the results and figures support the conclusions made in the report?
2. Discuss the foundations of data visualizations relative to the figures presented in the report.
3. State 3 things that are strong about their report and 2 things that can be improved.
